

Faculty of Design

Interior design STUDIO II. – Interior design of the public spaces

Workshop Spaces and functionality on Faculty of Design building

Monday 29th - Wednesday 31st May 2017

Lecturer: Danijela Domljan, PhD, assistant professor; University of Zagreb Faculty of Forestry, Zagreb Croatia

Three days at the Faculty of Design passed very quickly and operative. The working plan was short and intensive:

1st day / Monday / 8.30 - 11.00

Two presentations (lecturer)

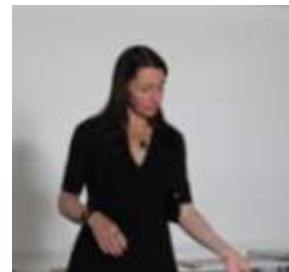

- 1) *To be a designer in Croatia.* A brief presentation about the lecturer herself; state of design in Croatia and the Faculty of Forestry; work with students and design companies in Croatia
- 2) Introduction to the workshop *Spaces and functionality on Faculty of Design building*
The aim of the workshop, main goals and desirable achievements were explained.

Students:

- have been divided in 5 teams (6 students in each group);
- got the divisions layouts of the building of the Faculty of Design
- were introduced to Demand Analysis for each space

Homework for the Day 2 was to:

- find and analyze the space in the building;
- analyze of the problem in the present state of the environment
- make a photos of the current state of the space
- analyze of users' needs
- find inspirations and possible design solutions how to improve the functionality and interior design
- prepare presentation in the form of ppt.

2nd day / Tuesday / 9.00 - 11.30

Presentation & Workshop

1) *Homework presentation* (students)

- the homework was done excellent
- through the analysis of the spaces students have created critical opinion of existing state and presented their ideas for improvement

2) *Designing and furnishing space* (lecturer). The basics of design and furnishing (shapes, colours, volume, etc.); examples of students' works at the Department of furniture and wood products Faculty of Forestry Zagreb

- Setting up requests for a new space design
- Conceptual sketches, ideas...

Homework for the Day 3 was to:

- prepare presentations of design solutions based on the previous analysis and the requirements set, with explanations, in ppt.
- conceptual sketches and suggestions for new space design

3rd day / Wednesday / 9.00 - 11.00

Workshop. Students' presentations /by groups presented to the professional experts publicity

- Presentation of the conceptual concept of space planning and interior design
 - Ppt. includes previous analysis, inspiration (short) and emphasis on ideas and concept.
- Verification of the best concept (teachers, other present students)

Conclusion of the workshop. Future tasks in continuation in defining performance and detail and future collaboration.
